
ASHEG BROM EDITING SERVICES

My editing service includes all of the following -

Option 1 - Grammatical Editing

- Spelling (including regional consistencies, for instance British vs. American spelling),
- Punctuation, including style guide considerations, for instance Oxford commas, and comma insertions/deletions, dashes and semicolons where deemed appropriate,
- Vocabulary choice recommendations when appropriate (for instance, clearer conjunctions, more descriptive adjectives, or choices for oft-repeated words),
- Inner-sentence organisation for clarity and/or emphasis (for example, subject-object order, or paraphrasing of long and/or difficult to read sentences),
- Adherence to any given style guide (including specifications on bibliographic sections and footnotes/endnotes), and
- Global consistency checking.

Option 2 - Developmental/structural editing

- All of the above, plus...
- Sentence organisation/position within paragraphs to enhance overall readability,
- Re-ordering suggestions of paragraphs, or sections thereof, to aid any or all of the following - readability, causality, internal logic, position of definitions/introductions of concepts, and insufficient clarity/evidence of concepts,
- The search and deletion of redundancies, on micro and macro levels, to tighten the text (if requested/required),
- Word count lengthening or reduction,
- To the best of my ability, fact checking whenever required or recommended,
- Comment boxes throughout the edited document, explaining any changes that might benefit from clarification.

All edits are done in Google Docs (or Word online). All edits are made with respect to the voice/conventions/reader expectations of the given genre. Consultation can be arranged for specific questions if required.
